## PROFILE

Production Support & Reliability Engineer with 7+ years of experience maintaining high-availability enterprise environments, driving rapid incident resolution, and minimizing MTTR. Skilled in ITIL process management, proactive observability using Dynatrace and Splunk, and collaborating with cross-functional teams to ensure maximum system uptime. Certified ITIL Foundation and AWS practitioner with hands-on experience in AWS and Linux system administration, deep log analysis, and automated CI/CD workflows using Git and GitHub Actions.

## KEY SKILLS

- **Observability & Monitoring:** Dynatrace, Splunk, Moogsoft
- **Incident & Operations Management:** ITIL v4, Incident/Problem/Change Management, Root Cause Analysis (RCA), Disaster Recovery
- **Cloud & Systems:** AWS, Linux (RHEL, Ubuntu)
- **Databases & Scripting:** MySQL, MS SQL Server
- **Automation & CI/CD and Other Tools (Hands-on):** GitHub Actions, Python, AutoSys, Oracle Weblogic Console, OpenShift 4

## PROFESSIONAL EXPERIENCE

### TEACHERS INSURANCE AND ANNUITY ASSOCIATION OF AMERICA (TIAA)

***Senior Analyst – Production Support and Architecture*** | Mar 2022 – Present

- Act as the primary point of contact for production issues, driving incident management, rapid troubleshooting, escalation handling, and problem resolution to maintain high service level agreements (SLAs).
- Proactively monitor system health, performance metrics, and application logs leveraging Dynatrace and Splunk dashboards, monitoring real-time metrics, and analyzing alerts to detect anomalies before they impact end users.
- Partner with DevOps and multi-functional engineering teams to manage production deployment gates within CI/CD pipelines, reviewing release readiness and authorizing change approvals to minimize live operational risks.
- Execute site/datacenter isolations, failover drills, and disaster recovery (DR) procedures by managing F5 BIG-IP Virtual Server (VIP) states (enabling/disabling traffic routing) alongside OpenShift and WebLogic infrastructure.
- Manage critical batch processing streams and workflows using AutoSys, CA7, and mainframe Auto Operator tools, executing direct interventions, data updates, and job reruns.

### LESTER INFOSERVICES PRIVATE LIMITED

***Senior Software Support Executive*** | Feb 2019 – Mar 2022

- Maintained production server integrity by validating, loading, and troubleshooting large-scale datasets for live operational calling environments using SQL Server, MS Access, and VICIDial.
- Resolved data-related production issues efficiently by writing SQL queries, joins, and sub-queries to analyze data discrepancies.
- Handled day-to-day data requests and process flows, ensuring data quality, accuracy, and timely delivery to clients.
- Documented standard operating procedures, known issues, and system modifications to maintain clear operational playbooks.

## CERTIFICATIONS & UPCOMING

- **Certified AWS Solutions Architect – Associate (SAA-C03)** – In Progress (Expected December 2026)
- **Red Hat Certified System Administrator (RHCSA)** – In Progress (Expected October 2026)
- **Certified AWS Cloud Practitioner** – AWS (Issued Oct 2023)
- **Certified ITIL 4 Foundation** – AXELOS (Issued Nov 2022)

## EDUCATION

**Bachelor of Science in Information Technology** (2015 – 2018)

*VES College of Arts, Science and Commerce, Mumbai University*

**Higher Secondary Certificate (HSC) in Bifocal Science** (2014 – 2015)

*N.G. Acharya and D.K. Marathe College, Maharashtra State Board*

## ADDITIONAL DETAILS

- **Languages:** English (Professional Proficiency), Hindi (Fluent), Marathi (Native)
- **Interests:** Reading, Video Gaming, Cricket, Hiking
